

Summer 2010

Program Run Through

Skaters will have a solo slot to “run through” their program each week on Thursdays from 8:30-9:00am.

Skaters qualify for the \$90 package price *if they are enrolled in at least one summer specialty class.*

Tuition

9 weeks ~ June 24 through August 19th

Package price of \$90, with enrollment in at least one summer specialty class. The \$90 package pricing is offered for the 9 run through's only. No refunds or credits for missed run through's and there are no make-ups.

Skaters may “walk-on” for a \$15 fee, provided space is available. Walk-on skaters are to confirm availability with director *before paying*. Skaters not enrolled in at least one summer specialty class must pay at the walk-on rate, assuming availability.

There are a finite number of slots that fit into the allocated time. Therefore, slots are awarded on a first-come, first-served basis. The weekly skating order will be announced by the director and requests for specific time slots may not be submitted.

Due to time constraints, skaters may enroll for a single run through opportunity. If time permits, skaters may purchase a second program run through on the spot (day of) for an additional \$5. If time permits and multiple skaters wish to run through a second program, a drawing system will be used to award slots. Skaters with two legitimate programs (long and short) will be given priority over skaters wishing to run through the same program two times.
